

MARIAYE VICKERY

JR. UI/UX DESIGNER

ABOUT

I am a Jr. UI/UX designer and experienced project manager. I love solving complex UX problems and finding opportunities for good user experiences.

I am highly proficient at conducting thorough user research, building high quality annotated user flows, wireframes and interactive prototypes for establishing and justifying product direction.

My approach to good design is finding the right balance of user empathy, usability, aesthetics, business acumen and an understanding of my users.
